Mitchell Park Community Center – El Palo Alto Room
3700 Middlefield Road, Palo Alto

Please join us at our next community meeting on **Wednesday, March 27** as we continue to talk about options to separate Palo Alto’s rail crossings from street traffic.

Though High-Speed Rail will likely be limited to the Central Valley, the electrification of Caltrain is still on schedule to be completed by 2022, which means we can expect many more trains to run through Palo Alto along the rail corridor.

Come learn more and help us gather information about how to improve connectivity and reduce traffic.

**Wednesday**
**March 27, 2019**
**6:00 - 8:00 pm**

Railroad crossing ideas to be discussed:
- Churchill Avenue
- Citywide Tunnel
